Off the rack
Everything at Forever 21
costs less than \$60 p90

Opening Remarks

6

Steve Jobs had the vision to turn a computer company into a mobile phone company. Apple will still make money if he doesn't return, but it's not clear if anyone else can make that kind of leap

Global Economics

11

Davos: Good old days

Bankers are asking to move beyond the crisis. What many really want is a return to business as usual

A dearth of women at Davos p12
Young Arabs need jobs p13
A French fighter spurned p14
Rose Q&A: Henry Kissinger p15
China's CEOs and the yuan p16
Tom Keene's EconoChat p16

Companies & Industries

21

Remaking GM

Freed of contract and other restraints, CEO Dan Akerson shifts the focus to building cars people want

Corporations come back to the Super Bowl p22
H&R Block uses a free offer to get tax filers in the door p23
How marketing missteps stalled TV sales p24
Briefs p25

Politics & Policy

26

The shadow Fed chair

Stanford economist John Taylor's blistering policy critiques have inspired Republican leaders

The risky business of limiting commodity speculation p28
Cuts to state college budgets could backfire p29
Doctors in the House p30
Corporate tax rates p31

Technology

33

EMC wants some respect

The storage provider has become a one-stop shop for cloud computing. Wall Street is unimpressed

The rise of "gamification" p35
A turnaround for Chinese chipmaker SMIC? p36
Nintendo: Small-screen 3D p38
"Artisanal publishing" via smartphones and tablets p39

Markets & Finance

41

Profit in the muni panic?

States' fiscal distress has investors fleeing. Some analysts see opportunity for the intrepid

In the ruins, big homebuilders make gains p42
Quattrone's comeback p43
Squeeze on small oil drillers p44
Pimco takes a step toward independence p45
Bid & Ask: The week's deals p46

Green Business

73

New Roman power

An Italian startup is tapping into aqueducts to generate electricity—and expanding in the U.S.

From the West Bank, fair-trade olives p75
Delivery trucks go electric p75
A new way to pay could energize fuel cells p76
Wind power's top lobbyist on Congress and China p78

Bloomberg Government Insider

A new quarterly insert focused on the intersection of profit and policy

47

Features

80

Jeff Bewkes and the Apple Trap

Time Warner's CEO demands a "fair price" for Web content. Can he stand up to iTunes and Netflix? p80

Forever 21: Steal This Look

The cheap-chic teen retailer is growing amid questions about just how original its designs are p90

The End of the Line

Taking apart an iconic American factory, ton-by-ton. An excerpt from the new book *Punching Out* p98

Etc.

105

Love in the Time of Cupertino

More than 27,000 iPhone/iMac/iPad devotees seek an iMatch on Apple-lovers-only dating site Cupiditino.com

Perks At video game maker Electronic Arts' Canada campus, it's always game time p108

One True Thing A shawl for when the weather, or the office AC, acts up p111

Branding How nonprofit Toastmasters went from small-town pastime for shy groomsmen to a business finishing school with 250,000 members p112

Wealth Looking for investment opportunities in major economic trends p114

The Stack How to explain the rise of the mogul class? Why, evolution, of course! At least that's the theory of the authors of *Naturally Selected* p116

Hard Choices WPP CEO Martin Sorrell on building his advertising juggernaut, letting go of employees, and uniting the company after an acquisition p118

Gramo A/S is rewriting the book on energy solutions.

By implementing an intelligent energy management system, this midsize bookbinding in Denmark created its own virtual power plant that controls consumption and cut costs by 10%.

Rosenau is steering its fleet toward happier customers.

This midsize transport company in Canada implemented onboard tracking technology to help optimize delivery routes and provide clients with up-to-the-minute shipping alerts.

---------------------	-----------

**GSMS is protecting products and patients.**

Using track-and-trace technology, this midsize pharmaceutical manufacturer and specialty packaging company in California is helping keep counterfeits out of its supply chain.

**Dragon Hotel is providing a legendary guest experience.**

At the heart of this Chinese hotel is a dynamic IT infrastructure that uses RFID-equipped smart cards for fast check-ins and custom room preferences so guests feel right at home.
